

Dear students,

According to the specification, lines are also provided for entry.

In the respective project line, the possible group size is displayed, e.g. 1 - 2 (possible alone or with another person). 2 - 2 means that the studio can only be edited in groups of two. You can register for a design project directly in the assignment with your desired partner.

**This means that you have to agree on possible partnerships beforehand based on the teaching offer cards and presentations. Only one person from the group can carry out the registration for the tandem design projects.**

In the case of those who have been registered in this way, one or more wishes have already been set. They can change the priority of this set wish. But agreement on the rank of the common wish (1st, 2nd, 3rd or 4th) is advantageous.

**All have to register in the allocation even if your partner registered you for all projects.**

Take your time in entering, the allocation will be done randomly only after the end of the registration period.

**Most common error:**

**Combination of Bachelor thesis and Additional design/project work.**

**Please never enter this way!**

**Please choose 4 different design projects!**

**In the case of group work, enter your partner/s at the same time after consultation.**

**Important: In the case of tandem projects (2 - 2), entries without a valid partner will be automatically sorted out.**

## Selection of Design Studios Winter Semester 2024/2025

**Correct:**  
four different design projects

**Wrong:**  
In the case of preference 2, for example, two editors are required and named but the matriculation number is missing.

# Good luck!

**Results on Tuesday, October 8, 2024  
at approx. 6 p.m. on ILIAS**

**in the folder Design Project Presentation and Placing**

Experience has shown that in some cases supply does not match demand. Also consider design topics beyond the darlings of the public to increase your chances of getting a design project place. If you fixate too strongly on the most popular topics, you may not be allocated a place at all.

In this case, contact the institutes who offer remaining places, which will be announced in the folder 'Entwurfsvorstellung und Vergabe' under item 5 Forum. All institutes will be asked to register for additional places. But be aware that the most popular will not restock.
