

Dear students,

As last semester you can register for a design project directly in the assignment with your preferred partner. The possible group size is displayed in the respective project line, e.g. 1 - 2 (possible alone or with another person). 2 - 2 means that the design project can only be edited in groups of two. According to this information, lines are also made available for entry.

This implies that you have to agree on possible partnerships beforehand on the basis of the teaching offer cards and presentations.

Only one person from the group can complete the registration for the tandem design project(s).

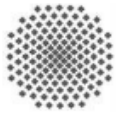

For those who have been registered in this way, one or more wishes have already been set. However, you can change the priority of this set wish.

All have to register in the allocation.

Please take your time. The programme works according to the random principle.

Please choose 4 different design projects!

In the case of group work, enter your partner/s at the same time after consultation.

Important: In the case of tandem projects (2 - 2), entries without a valid partner will be automatically sorted out.

Selection of Design Studios Winter Semester 2021/22

Correct:
four different design projects
Wrong:
In the case of preference 1, for example, a second editor is required and named but the matriculation number is missing.

Good luck!

**Results on Monday, 04.10.2021
at approx. 6 p.m. on ILIAS**

**in the folder
Design presentation and Placing**

Experience has shown that in some cases supply does not match demand. Also consider design topics beyond the darlings of the public to increase your chances of getting a design project place. If you fixate too strongly on the most popular topics, you may not be allocated a place at all.

In this case, all institutes will be asked to register for additional places, which will be announced in the folder 'Entwurfsvorstellung und Vergabe' under item 5 Forum. But be aware that the most popular will not restock.
